Dear Ora Kay;

Following up on your suggestion that we might seek historic status for Mineral King I wrote my friend who is very active in that organization. He said that the first step he would suggest would be to get in touch with the State Historic Preservation Officer--which Nadine says you have already done... My friend assumed that Nadine and I might make contact, so he cautioned me, as you will see from his letter, to base our arguments on the continuity of our (collectively) habititation of the area.

I think that I sent you a copy of Beverly's fine letter to Evison wherein she protests at the rank discrimination in favor of the "masses" (backpackers) and against the rights of the Individual, reslly one of the bases on which our country was founded.

I am currently reorganizing my Den and filing system with the result that I cant locate your letter questioning about meeting dates; but I'll answer here-- If we possibly can we will attend the Feb. meeting in Visalia. We are opposed to chang in the Summer meet as we will be in MK for just the first two weeks of August--and we normally depart by noon on the 2nd Saturday. We are due to get our definite cabin schedule from John Crowley any time now.. I think I paid my personsl dues in the Fall--am I right ?

Have a ~~happy Spring~~----(Wrong place)

It is my intention to write to Pete Wilson to ask him to offer an Amendment to the law that got us into the mess sponsored by Senator Cranston: and also to Bill Clark and our Congressman here in Contra Costa County.

If you hav difficulty getting to Sacramento, Nadine and I

Have a Happy Spring

Sincerely

Mac

MacGregor Graham

Sorry - Dr Hosmer's letter lost out in copying - I'll send a copy later.
